Subject: OH CAFO permit example?

Hi Cheryl,

I have a coal mine permit, its for a waste rock refuse pile set of receiving "treatment" ponds in SE OH. AEC Bennoc.

They have insufficient language regarding the design & operation regarding volume to be managed in these ponds.

Pat indicated that OH's CAFO permits have much better language.

Could you send me an example permit, that I can lift the language from to use in my permit comments to OEPA?

If this isn't clear, give me a call

I really appreciate your response, OEPA is redrafting the permit and I told them this am EPA has suggested language to submit to them.

Thanks

Janet
